### Revised terms of Reference for the Joint FAO/ILO/IMO Ad Hoc Working Group on Illegal, Unreported and Unregulated Fishing and Related Matters

#### Background

1. There has been a longstanding cooperative relationship among the secretariats of the Food and Agricultural Organization (FAO), the International Labour Organization (ILO) and the International Maritime Organization (IMO) on matters related to the fishing sector.
2. The establishment of the Joint FAO/IMO Ad Hoc Working Group on Illegal, Unreported and Unregulated (IUU) Fishing and Related Matters (JWG) was prompted by a call from the FAO Committee on Fisheries (COFI), in 1999, for FAO to obtain assistance from IMO, in particular, with regard to general concerns about re-flagging and IUU fishing. Also in 1999, the United Nations Commission on Sustainable Development highlighted the need for FAO and IMO to cooperate on solving problems related to IUU Fishing. IMO and FAO worked together to establish the JWG, and the first JWG meeting was held in 2000.
3. ILO attended JWG meetings in 2000, 2007 and 2015 as an observer. In 2019, the ILO joined the JWG as the third member organization.

#### Objective

4. The three member organizations, i.e. FAO, ILO and IMO, shall collaborate in order to coordinate efforts to address IUU fishing and related matters. This collaborative work shall be undertaken within the context of each member organization's mandate: FAO on fisheries in general, ILO on decent work in the fishing sector, and IMO on maritime safety and security, and the protection of the marine environment. The JWG will promote global, regional and national cooperation on IUU fishing and related matters, in particular, among the various national authorities and other public actors involved.

#### Secretariat

5. The member organizations shall establish a joint secretariat with an identified focal point for each member organization.
6. The joint secretariat shall have the following functions:
  - (i) coordinate the selection of members to JWG meetings;
  - (ii) decide on the convening of special meetings and organize the holding of JWG meetings, as appropriate;
  - (iii) provide services to the JWG to facilitate the execution of its functions;
  - (iv) be responsible for preparing draft agendas and the receipt, collection, circulation, submitting documents or issuing submissions received for JWG meetings;
  - (v) issue the JWG report, including recommendations, in cooperation with the chairperson and the vice-chairpersons, and its publication, as appropriate;

- (vi) be responsible for the coordination of the follow-up to the recommendations of the JWG, including coordination of technical cooperation and follow-up of work plans;
- (vii) maintain contacts with relevant governments, international organizations and institutions; and
- (viii) undertake other functions or responsibilities as may be conferred by the JWG.

## Composition

7. The JWG shall be composed of up to 12 members <sup>1</sup> nominated by FAO and up to 12 members <sup>2</sup> nominated by IMO, as well as four members – two representatives of employers and two representatives of workers – nominated by the ILO through the respective Employers' and Workers' groups of the ILO Governing Body.
8. Bearing in mind that one of the key objectives of the JWG is to enhance awareness and cooperation among various authorities involved in fishing and fishery management-related matters at the national level, each FAO and IMO member shall endeavour to participate with representatives from fisheries, labour and maritime authorities.
9. The FAO and IMO shall nominate their members, giving due consideration in particular to equitable geographical representation and a balance between developed and developing member States.
10. All members may submit working and information documents and may be assisted by experts and advisers when needed.

## Functions

11. In order to meet its objective, the JWG shall discuss, coordinate and, as appropriate, make recommendations concerning cooperation among and between relevant stakeholders and, in particular, flag, port, coastal, market and labour supplying States, with respect to:
  - (i) IUU fishing;
  - (ii) maritime safety and security;
  - (iii) decent work in the fishing sector;
  - (iv) protection of the marine environment;

  - (vi) other relevant topics.
12. The JWG shall exchange information about relevant developments, propose workplans for intersessional periods, and initiate and support FAO, ILO and IMO coordination and cooperation at global, regional and national levels.
